FOXIT CORPORATION LICENSE AGREEMENT FOR FOXIT PDF IFILTER SERVER

IMPORTANT-READ CAREFULLY: This Foxit Corporation ("Foxit") License Agreement ("License" or "Agreement") is a legal agreement between You (either an individual or an entity, who will be referred to in this License as "You" or "Your") and Foxit for the use of Foxit PDF IFilter, and which may include associated media, printed materials, and other components and software modules including but not limited to drivers ("Product"). The Product also includes any software updates and upgrades that Foxit may provide to You or make available to You, or that You obtain after the date You obtain Your initial copy of the Product, to the extent that such items are not accompanied by a separate license agreement or terms of use. BY INSTALLING, COPYING, DOWNLOADING, ACCESSING OR OTHERWISE USING THE PRODUCT, YOU AGREE TO BE BOUND BY THE TERMS OF THIS FOXIT LICENSE AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT YOU HAVE NO RIGHTS TO THE PRODUCT AND SHOULD NOT INSTALL, COPY, DOWNLOAD, ACCESS OR USE THE PRODUCT.

The Product is protected by copyright laws as well as other intellectual property laws. The Product is licensed and not sold.

1. GRANT OF LICENSE. Foxit grants You a non-exclusive, nontransferable license to install and use the Product subject to all the terms and conditions set forth here within.

1.1. Single-Use Perpetual License. You may permit a single authorized end user to install the Product on a single computer for use by that end user only. Remote access is not permitted without the express written consent of Foxit.

1.2. Single-Use Term License. Same usage terms as the Single-Use Perpetual License. The period of use is limited to a fixed duration at which the time the Product must be deinstalled from the computer unless the license is renewed for an additional period of time.

2. ADDITIONAL LIMITATIONS. You may not reverse engineer, decompile, or disassemble the Product, except and only to the extent that it is expressly permitted

by applicable law notwithstanding this limitation. You may not rent, lease, lend or transfer the Product, or host the Product for third parties. The Product is licensed as a single integral product; its component parts may not be separated for use on more than one computer. The Product may include copy protection technology to prevent the unauthorized copying of the Product or may require original media for use of the Product on the computer. It is illegal to make unauthorized copies of the Product or to circumvent any copy protection technology included in the Product. The software may not be resold either by You or a third party customer without the prior written permission of Foxit. All rights not expressly granted to You are retained by Foxit.

2.1. Third Party Software. The Product may contain third party software that Foxit can grant sublicense to use and which is also protected by copyright law and other applicable laws.

3. EDUCATIONAL USE. If the Product You have received with this Agreement is an Educational Software Bundle (where the Product is received by virtue of Your participation in a Foxit program designed for educational or research institutions, or is provided by Foxit to You under some other arrangement), You are not entitled to use the Product unless You are an employee or student of such educational institution. Educational Software Products may be used for educational and research purposes only. Commercial and general production use of Educational Software Products are specifically prohibited. The Product is provided under a Single-Use Term License as described above. You may install one copy of the Product on one desktop computer in a designated computer used for educational purposes under Your license agreement. Your Educational license is granted for a period of one year, unless stated otherwise, from when the Product license keys are made available to You. Your Educational license entitles You to email and telephone support for up to two designated employees and product upgrades during the term of Your license. You grant Foxit the right to use material created under such license for marketing and advertising purposes.

4. SUPPORT, MAINTENANCE, AND UPGRADE PROTECTION TERMS AND CONDITIONS.

4.1. Term of Maintenance. Foxit agrees to provide Maintenance (as defined herein) to You pursuant to the terms and conditions set forth herein provided that You pay the Maintenance Fee for each Product for which Maintenance is desired and as further described in Section 4.4 below. Maintenance will be provided for a period of one year, unless otherwise agreed to by the parties in

writing, from the date of purchase of the Product (the "Initial Support and Maintenance Term"), and with renewals, annually from the expiration date of the prior Support and Maintenance Term. Failure to renew annual maintenance may result in You having to purchase a new license in order to receive future versions of software and associated ongoing support and maintenance.

4.2.1. Maintenance Services. In exchange for the Maintenance Fee, Foxit agrees to provide to You during the term of this Agreement support and maintenance (collectively "Maintenance") as follows:

4.2.1.1. Support: Foxit will provide email and telephone support to You for current versions of the Product. Foxit will investigate all of Your questions and problems promptly. You agree to provide adequate information to Foxit to assist in the investigation and to confirm that any problems have been resolved. Foxit does not provide guaranteed response time but will make good faith effort to answer emails and voice mails within twenty-four (24) hours or less during weekdays, excluding holidays.

4.2.1.2. Maintenance: Foxit will supply to You, at no additional charge, any improvements, upgrades, or modifications to the Product that Foxit makes generally available. Any such improvements, upgrades, or modifications shall become part of the Product for all purposes of this Agreement.

4.2.1.3. You acknowledge and agree that the Maintenance to be provided by Foxit hereunder is limited to the most current version of the Product and the immediately preceding version.

4.2. Term of Upgrade Protection. Foxit agrees to provide Upgrade Protection (as defined herein) to You pursuant to the terms and conditions set forth herein provided that You pay the Upgrade Protection Fee for each Product for which Upgrade Protection is desired and as further described in Section 4.4 below. Upgrade Protection will be provided for a period of one year, unless otherwise agreed to by the parties in writing, from the date of purchase of the Product (the "Initial Upgrade Protection Term"), and with renewals, annually from the expiration date of the prior Upgrade Protection Term. Failure to renew annual Upgrade Protection may result in You having to purchase a new license in order to receive future versions of software and associated ongoing Upgrade Protection.

4.3. Exclusions. Foxit's obligation to provide Support is contingent upon proper use of the Product and full compliance with this Agreement. Moreover, Foxit

shall be under no obligation to provide Support should such services be required due to (a) failure to operate the Product within the systems requirements provided for the Product (b) any modification or attempted modification of the Product by You or any third party or (C) Your failure or refusal to implement Product changes recommended by.

4.4. Consideration. In payment of the Support, Maintenance and Upgrade Protection services to be provided by Foxit hereunder, You shall pay Foxit, or its authorized agent, the applicable fee for the Initial Support, Maintenance and Upgrade Protection Term as indicated on the related invoice, receipt, purchase order, or other ordering document ("Support, Maintenance and Upgrade Protection Fee"). At the end of the Initial Support, Maintenance and Upgrade Protection Term, or any subsequent Support, Maintenance and Upgrade Protection Term, You may renew participation in Support, Maintenance and Upgrade Protection services for additional annual term(s) provided You (a) are current on all payments due to Foxit and (b) pay Foxit, or its authorized agent, the applicable renewal fee, which Foxit, or its authorized agent, shall invoice prior to the end of the preceding term, unless terminated by You at least 30 days prior to the expiration of the then current Support, Maintenance and Upgrade Protection Term. The Support, Maintenance and Upgrade Protection Fee for renewal shall be equal to the Support, Maintenance and Upgrade Protection Fee for the immediate preceding annual term plus an increase by a percentage not to exceed the Consumer Price Index (CPI), as published by the U.S. Department of Labor. In addition, Support, Maintenance and Upgrade Protection shall be discontinued for any and all subsequent Support, Maintenance and Upgrade Protection Terms for which You fail to pay Foxit the invoice within ten (10) days after the prior Support, Maintenance and Upgrade Protection expiration date.

4.5. Exceptions. For use of the Product or a Beta Software Product, only the Maintenance Services and Exclusions paragraphs of this section apply. For use of the Product under Educational Use terms, the Maintenance Services and Exclusion paragraphs apply as long as You pay for the maintenance period defined under Your Single-Use Term License.

5. PAYMENT TERMS. Unless explicitly set forth in this Agreement, all fees and other amounts due under this Agreement are non-cancelable and non-refundable. Unless otherwise agreed to by the parties, You shall pay all fees or amounts within 30 days of the date of the invoice. A late fee shall be charged on any overdue amounts and any other fees and expenses not paid as provided under this Agreement at the rate of one

and one-half percent (1½%) per month, or the highest rate allowable under applicable law, whichever is less, commencing with the date payment was due.

6. TAXES. The fees and all other amounts due as set forth in this Agreement are net amounts to be received by Foxit, exclusive of all taxes, duties, and assessments, including without limitation all sales, withholding, VAT, excise, ad valorem, and use taxes (collectively, the "Taxes"), and are not subject to offset or reduction because of any Taxes incurred by You or otherwise due as a result of this Agreement. You shall be responsible for and shall pay directly, any and all Taxes relating to the performance of this Agreement, provided that this paragraph shall not apply to taxes based solely on Foxit's income.

7. CONSENT TO USE OF DATA. If Foxit provides any support services to You, You agree that Foxit and its affiliates may collect and use all information You provide as a part of any such support services related to the Product. Foxit agrees not to use this information in a form that personally identifies You.

Collection of this information occurs in accordance with the Foxit Privacy Policy (http://www.foxitsoftware.com/privacy.php)

8. INTELLECTUAL PROPERTY RIGHTS. Subject to the license grant hereunder, all right, title and interest in and to the Product, the accompanying printed materials, and any copies of the Product are owned by Foxit and its licensors.

9. EXPORT RESTRICTIONS. You acknowledge that Product is of U.S. origin. You agree to comply with all applicable foreign, federal, state and local laws and regulations governing Your use of the Product. Without limiting the foregoing, in the event that this Agreement permits export of the Product outside the U.S., You shall be solely responsible for compliance with all applicable U.S. export laws, rules, and regulations. The Product is subject to the U.S. Export Administration Regulations and other U.S. law, and may not be exported or re-exported to certain countries (currently Cuba, Iran, Libya, North Korea, Sudan and Syria) or to persons or entities prohibited from receiving U.S. exports (including those (a) on the Bureau of Industry and Security Denied Parties List or Entity List, (b) on the Office of Foreign Assets Control list of Specially Designated Nationals and Blocked Persons, and (c) involved with missile technology or nuclear, chemical or biological weapons).

10. WARRANTY

10.1. Warranty. Foxit warrants that for a period of 90 days from the date of delivery ("Warranty Period"), under normal use, the Product will perform substantially in conformance with the specifications published in the

Documentation. During such period, and as the sole obligation of Foxit and Your sole remedy under the warranty in this Section, if You provide written notice of Foxit's failure to comply with the above warranty, Foxit will use reasonable commercial efforts to correct such nonconformity in the Product as in accordance with the terms of the Maintenance and Support Policy. In addition, if Foxit determines it is not commercially reasonable to correct the nonconformity, Foxit may elect to terminate the license to such Product, upon which termination Licensee will promptly return to Foxit all such copies of such Product. Upon receipt of the Product from Licensee, Foxit will return to Licensee all license fees (and any unused support fees) paid to Foxit by You for such Product. This warranty set forth above does not apply to, and Foxit shall have no obligation with respect to, any non-conformity arising as a result of (i) use of the Product other than as specified under this Agreement and the related Documentation; (ii) any modification or alteration of the Product performed other than by Foxit or its agents, or (iii) transfer of the Product to any computer system other than the ones on which Product is authorized to be stalled, except as permitted in this Agreement.

10.2. Disclaimer. Other than the warranty set forth in Section 10.1 above, and to the maximum extent permitted by applicable law, Foxit, its authorized resellers and their subsidiaries provides the Product and any support services related to the Product ("Support Services") AS IS AND WITH ALL FAULTS, and hereby disclaim all other warranties and conditions, either express, implied or statutory, including, but not limited to, any implied warranties, duties or conditions of merchantability, of fitness for a particular purpose, of accuracy or completeness of responses, of results, of workmanlike effort, of lack of viruses, and of lack of negligence, all with regard to the Product, and the provision of or failure to provide support services.

11. LIMIT OF LIABILITY AND EXCLUSION OF INCIDENTAL, CONSEQUENTIAL AND CERTAIN OTHER DAMAGES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL FOXIT, ITS AUTHORIZED RESELLERS OR THEIR SUBSIDIARIES BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFITS OR CONFIDENTIAL OR OTHER INFORMATION, FOR BUSINESS INTERRUPTION, FOR PERSONAL INJURY, FOR LOSS OF PRIVACY, FOR FAILURE TO MEET ANY DUTY INCLUDING OF GOOD FAITH OR OF REASONABLE CARE, FOR NEGLIGENCE, AND FOR ANY OTHER PECUNIARY OR OTHER LOSS

WHATSOEVER) ARISING OUT OF OR IN ANY WAY RELATED TO THE USE OF OR INABILITY TO USE THE PRODUCT, THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES, OR OTHERWISE UNDER OR IN CONNECTION WITH ANY PROVISION OF THIS LICENSE, EVEN IN THE EVENT OF THE FAULT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, BREACH OF CONTRACT OR BREACH OF WARRANTY OF FOXIT, EVEN IF FOXIT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

11.1. LIMITATION OF LIABILITY AND REMEDIES. Notwithstanding any damages that You might incur for any reason whatsoever (including, without limitation, all damages referenced above and all direct or general damages), the entire liability of Foxit, its resellers and their subsidiaries under any provision of this License and Your exclusive remedy for all of the foregoing shall be limited to the amount actually paid by You for the Product. The foregoing limitations, exclusions and disclaimers shall apply to the maximum extent permitted by applicable law, even if any remedy fails its essential purpose.

11.2. NOTICE TO U.S. GOVERNMENT END USERS

11.3. For contracts with agencies of the Department of Defense, the Government's rights in: (1) commercial computer software and commercial computer software documentation shall be governed, pursuant to 48 C.F.R. 227.7201 through 227.7202-4, by Foxit's standard commercial license(s) for the respective product(s); (2) software and software documentation other than commercial computer software and commercial computer software documentation shall be governed by 48 C.F.R. 252.227-7014; (3) technical data for commercial items other than software or software documentation shall be governed by 48 C.F.R. 252.227-7015(b); and (4) technical data for non-commercial items other than software or software documentation shall be governed by 48 C.F.R. 252.227-7013.

11.4. For contracts with U.S. Government agencies other than the Department of Defense agencies, the Government's rights in: (1) commercial computer software and commercial computer software documentation shall be governed, pursuant to 48 C.F.R. 2.101 and 12.212, by Foxit's standard commercial license(s) for the respective product(s); (2) software and software documentation other than commercial computer software and commercial computer software documentation shall be governed by 48 C.F.R. 52.227-14, Alternative III; and (3) technical data other than software and software

documentation shall be governed by 48 C.F.R. 52.227-14 including, where applicable Alternatives I or II.

12. GENERAL. This Agreement will be governed by and construed in accordance with the laws of the State of California excluding that body of laws known as conflicts of law. The United Nations Convention on Contracts for the International Sale of Goods will not apply. Any legal action or proceeding arising under this Agreement will be brought exclusively in the federal or state courts located in San Jose, California and the parties hereby irrevocably consent to the personal jurisdiction and venue therein. You may not assign this Agreement or any right or interest hereunder, by operation of law or otherwise, without Foxit's express prior written consent. Any attempt to assign this Agreement, without such consent, will be null and of no effect. Subject to the foregoing, this Agreement will bind and inure to the benefit of each party's successors and permitted assigns. Except as expressly set forth in this Agreement, the exercise by either party of any of its remedies under this Agreement will be without prejudice to its other remedies under this Agreement or otherwise. If for any reason a court of competent jurisdiction finds any provision of this Agreement invalid or unenforceable, that provision of the Agreement will be enforced to the maximum extent permissible and the other provisions of this Agreement will remain in full force and effect. All notices or approvals required or permitted under this Agreement will be in writing and delivered by confirmed facsimile transmission, by overnight delivery services, or by certified mail, and in each instance will be deemed given upon receipt. All notices or approvals will be sent to the addresses set forth in the applicable ordering document or invoice or to such other address as may be specified by either party to the other in accordance with this section. Neither party will be responsible for any failure or delay in its performance under this Agreement (except for any payment obligations) due to causes beyond its reasonable control, including, but not limited to, labor disputes, strikes, lockouts, shortages of or inability to obtain labor, energy or supplies, war, terrorism, riot, or acts of God. The failure by either party to enforce any provision of this Agreement will not constitute a waiver of future enforcement of that or any other provision. This Agreement, including Foxit's support and maintenance services terms constitutes the entire and exclusive agreement between the parties concerning its subject matter and supersedes all prior written and oral understandings and agreements between the parties regarding its subject matter. The terms and conditions contained in any customer purchase order or other ordering document that are inconsistent with or in addition to the terms and conditions of this Agreement are hereby rejected by Foxit and will be deemed null and of no effect.

13. COMPLIANCE WITH LICENSES. If You are a business, company or organization, You agree that upon request from Foxit or its authorized representative You will within thirty (30) days fully document and certify that use of any and all Foxit Products at the time of the request is in conformity with Your valid licenses from Foxit.

14. DISCONTINUING OR MODIFYING SERVICES. You acknowledge that Foxit has the right to discontinue the manufacture and development of any of the Product and the support for that Product, in its sole discretion at any time, including the distribution of older Product versions, provided that Foxit agrees not to discontinue the support for that Product during the current annual term of this Agreement, subject to the termination provisions herein. Notwithstanding the foregoing, if Foxit discontinues the manufacture and support for a particular Product, Support for any remaining Products covered by this Agreement shall not be adversely affected. Foxit reserves the right to alter the Support, in its sole discretion but in no event shall such alterations result in: (a) diminished support form the level of support set forth herein; (b) materially diminished obligations for Foxit; or (c) Your materially diminished rights.

15. MARKETING. You agree that You and Your business, company, or organization may be identified as a customer of Foxit and Foxit may refer to You and your business, company, or organization by name and logo, and Foxit may briefly describe Licensee's business in Foxit's marketing materials and website.

16. Should You have any questions concerning this License, or if You desire to contact Foxit for any reason, please call (510) 438-9090.

Chapter 1 - Overview

Welcome to Foxit PDF IFilter - a professional tool that helps you to index PDF files.

Foxit PDF IFilter is an application that extracts the contents, properties, bookmarks, form, annotations and attachments from PDF documents, indexes them, and returns the indexed results to the search engine so that users can search PDF documents with keywords.

Foxit PDF IFilter supports PDF 1.7 specification and can be used in many Microsoft search engines, such as Windows Indexing Service, MSN Desktop Search, Internet Information Server, SharePoint Portal Server, Windows SharePoint Services (WSS), Site Server, Exchange Server, SQL Server, and all other products based on Microsoft Search technology. With Foxit PDF IFilter, all these search engines can find PDF files with ease.

Why PDF IFilter?

PDF IFilter is necessary for several reasons:

- Microsoft creates and maintains office file formats, such as .doc, .xls, .ppt, etc. However, many other file formats are created and maintained by other companies. For example, PDF was created by Adobe.
- With the advantages of security, reliability and accessibility, PDF is now being used by more and more people all over the world.
- PDF IFilter is a plug-in that allows Microsoft search engines to index PDF files so that they become searchable. Without an appropriate PDF IFilter, contents of a PDF file cannot be indexed.

Why Foxit PDF IFilter?

Foxit PDF IFilter is favored by a large number of governments and well-known companies because of the following reasons:

- Foxit PDF IFilter helps to do PDF indexing, which makes finding information much easier.
- Foxit PDF IFilter supports multi-threading and makes full use of multi-CPU/core in a server.
- > Foxit PDF IFilter supports native 64-bit code.
- Smaller and faster than other PDF IFilters.
- Supports twelve languages. Please go to Language Support part for details.

How Foxit PDF IFilter works?

Foxit PDF IFilter acts as a plug-in for full-text search engines. A search engine usually works in two steps:

Step 1, the search engine goes through a designated place, e.g. a file folder or a database, and indexes all documents or newly modified documents, including PDF documents, in the background and creates internal data to store the indexed result.

Step 2, a user specifies some keywords for search and the search engine looks up the indexing result and responds to the user with all the documents that contain the keywords.

During Step 1, the search engine looks in the windows registry for appropriate IFilter implementations and uses those filters for indexing. It filters out embedded formatting and extracts text from the document and returns the result. Foxit PDF IFilter is one such implementation. Further information about the IFilter specification can be found on the Microsoft Web site.

Key Benefits

- > Integrates with existing operating systems and tools within your company.
- Provides an easy solution to search within PDF documents located on the local computer, local network, and/or intranet.
- > Greatly increases your ability to accurately locate information.
- > Much smaller and faster than PDF IFilters offered by other vendors.
- > Supports Chinese/Japanese/Korean PDF documents.
- > Supports native 64-bit code.
- Supports searching and indexing PDFs by extracting subject, author and content of annotations.
- > Supports multi-threading and takes full use of multiple-CPU in a server.

Chapter 2 - Getting Started

Installing Foxit PDF IFilter

To install Foxit PDF IFilter on your environment, please first download the current version with the link provided in the sales email after purchasing the license. Also, you could apply for 30-day trail from Foxit Website (<u>http://www.foxitsoftware.com/products/ifilter/</u>).

There are two packs of Foxit PDF IFilter, which are respectively for 32bit OS and 64bit OS. Please get the proper one and install it as follows.

- 1. Stop all the appropriate clients.
- 2. Uninstall any previous version of Foxit PDF IFilter if installed.
- 3. Launch the installer of Foxit PDF IFilter and follow the step to finish the installation.
- 4. Restart all the appropriate clients after finishing the installation.

Notes:

- More installation steps are required for SQL, WSS and Moss environments. Please refer to the corresponding chapter.
- > Foxit PDF IFilter item will appear in program list of Control Panel after installation.
- > Foxit PDF IFilter has no user interface.

Configuring Foxit PDF IFilter

There are five registry items for configuring Foxit PDF IFilter. They are under the directory: "HKEY_LOCAL_MACHINE\SOFTWARE\Foxit Software\Foxit PDF IFilter".

FilterAnnotation[REG_DWORD] - sets the value to specify whether to filter out annotations. 0 represents no and other values represent yes.

FilterBookmarks[REG_DWORD] - sets the value to specify whether to filter out bookmarks. 0 represents no and other values represent yes.

FilterAttachFile [**REG_DWORD**] - sets the value to specify whether to filter out attachments. 0 represents no and other values represent yes.

LogLevel [REG_DWORD] - sets the log level. Value can be from 0 to 3.

0 - no output

1 - Error log only. Includes error information when errors happen, and stack message when the application crashes.

- 2 Simple log which only includes the main calling functions and returned values.
- 3 Detailed log which includes specific information such as date and chunk.

LogFilePath [REG_SZ] - sets the output path of log file.

Note:

The default setting in Foxit PDF IFilter is to filter out bookmarks. Restart the application if you made any changes to the registry.

Updating Foxit PDF IFilter

To update Foxit PDF IFilter, please download the current version from Foxit website and then install it. During installation, the old version will be covered. Your previous settings in Foxit PDF IFilter and the server will not be changed. If you want to use the new features of Foxit PDF IFilter, you need to reset Foxit PDF IFilter's settings first. If you want to change the install path of Foxit PDF IFilter, you must reset the server settings.

Note: If you purchase and activate the official version during the free trial, your settings in the trial version will not be changed.

Uninstalling Foxit PDF IFilter

To remove the old version of Foxit PDF IFilter, please uninstall it from Control Panel or with the help of the installer as below:

- 1. From Control Panel:
- Choose Start > Control Panel > Add or Remove Programs.
- Choose the "Foxit PDF IFilter" item and then click "Remove" button to uninstall it.
- 2. From the installer:
- Double-click the Foxit PDF IFilter.msi setup file that was used to install Foxit PDF IFilter.
- In the Foxit PDF IFilter dialog box, select **Remove Foxit PDF IFilter**.
- Click the **Finish** button to uninstall it.

Chapter 3 - Foxit PDF IFilter for SharePoint/MOSS

Foxit PDF IFilter can help search text in PDF files. After installing Foxit PDF IFilter, you should upload your PDF documents and perform a full crawl with Microsoft Office SharePoint Server (MOSS) before you start searching.

You don't have to do full crawls every time you add new PDF files. You may schedule the incremental crawls for all the new ones.

Working in SharePoint 2013 and SharePoint 2016

Foxit PDF IFilter can work successfully on SharePoint 2013 and SharePoint 2016 with the hotfix KB2883000. So for SharePoint 2013 and SharePoint 2016, please make sure that you have installed the hotfix KB2883000.

Installing Foxit PDF IFilter

There are two packs of Foxit PDF IFilter, which are respectively for 32bit Windows OS and 64bit Windows OS. Please choose one to install according to your server environment. Before installing Foxit PDF IFilter, please make sure that Microsoft Office SharePoint Server has been installed successfully.

Note: It is installed on the Crawl server.

To install Foxit PDF IFilter, please follow these steps:

1. Download Foxit PDF IFilter.

You could get the download link by email after purchasing Foxit PDF IFilter or applying for the 30-day trial version. Then please download Foxit PDF IFilter onto the machine where you want to install it.

2. Stop the IIS Admin service.

Click Start > Administrator Tools > Services (Local) > IIS Admin Service > Stop > close window.

3. Install Foxit PDF IFilter.

Run the Foxit PDF IFilter Setup program to install it on the server.

4. Use a third PDF IFilter.

To have a third PDF IFilter worked, you should replace the built-in PDF IFilter.

A. Click Start > choose SharePoint 2013 or SharePoint 2016 Management Shell.

Please make sure that you have run it as Administrator. Or you may fail to perform the commands in the following two steps.

- B. To replace the built-in PDF IFilter with a third one, please perform the following two commands:
 - a. \$ssa = Get-SPEnterpriseSearchServiceApplication
 - b. Set-SPEnterpriseSearchFileFormatState -SearchApplication \$ssa PDF \$TRUE \$TRUE

C. Please run the following command to retrieve information about "pdf" in the Search service application.

6 <u>.</u>	Administrator: SharePoint 2013 Management Shell	x
	s\spadmin> \$ssa = Get-SPEnterpriseSearchServiceApplication s\spadmin> Get-SPEnterpriseSearchFileFormat -SearchApplication \$ssa	p
Extension BuiltIn	: True : True	
PS C:\Users	s\spadmin> _	~
<		>

The returned value *"UselFilter: True"* means that you have successfully used a third PDF IFilter.

5. Perform an iisreset.

To make the changes to take effect, you need to perform an iisreset.

D. Click Start > Run > type "cmd" to go into the command prompt window > then type "iisreset".

@ E:\WINDOW5\system32\cmd.exe	_ 🗆 🗡
Microsoft Windows [Version 5.2.3790] (C) Copyright 1985-2003 Microsoft Corp.	
E:\Documents and Settings\Administrator isreset	
Attempting stop Internet services successfully stopped Attempting start Internet services successfully restarted	
E:\Documents and Settings\Administrator>_	

E. Exit the command prompt window once if IIS stops and restarts successfully.

6. Restart the SharePoint Search Service.

To restart the SharePoint Search Service, please perform the following commands:

SharePiont 2013

- a. net stop spsearchhostcontroller
- b. net start spsearchhostcontroller

- c. net start spsearchhostcontroller
- d. net stop osearch16
- e. net start osearch16

Indexing PDFs

To index PDF files on your computer, please follow these steps:

- 1. Add the .pdf file type to the SharePoint content index list.
 - A. Go to Application Management > Manage service applications > Search Administration

- B. In Search Administration page > go to Crawling section > click File Types
- C. Click New File Type > type "pdf" in the File extension field > click OK.

pdf	×	
Evamplaci das html		
Examples: doc, html		
examples: doc, numi		
examples, doc, num		
examples, doc, num		

- D. Click New File Type > type "pdf" in the File extension field > click OK.
- E. Then you could find that pdf file type has been added to the page and it connects to the pdf file icon added.

	msg
	mspx
	nsf
	nws
	odc
•	odp
X	ods
w 🗟	odt
NT.	one

3. Click any search result and then you could open the PDF with the default PDF viewer.

More Help

For more information on how to work with Microsoft Office SharePoint Server (MOSS), please refer to Microsoft Office SharePoint Server (MOSS) Help included in the product.

Working in SharePoint 2010

Installing Foxit PDF IFilter

Foxit PDF IFilter has two versions respectively for 32-bit Windows and 64-bit Windows. You can choose one of them to install into your machine according to your system requirements. Before installing Foxit PDF IFilter, please note that Microsoft Office SharePoint Server has been installed successfully.

To install Foxit PDF IFilter, please do the following:

- Download Foxit PDF IFilter from Foxit Website (<u>http://www.foxitsoftware.com</u>) onto the machine where you wish to install it.
- Stop the IIS Admin service: Start > Administrator Tools > Services(Local) > IIS Admin Service > Stop. Close window.
- Run the Foxit PDF IFilter Setup program to install the filter on the server.
- Perform an iisreset:

1. Click Start > Run > type "cmd" in the Open line> click OK > type "iisreset" at the command prompt > hit Enter.

- 2. Close the window.
- Stop and start the Sharepoint Search Service by running the following commands:
 - 1. net stop spsearch4
 - 2. net start spsearch4
 - 3. net stop osearch14
 - 4. net start osearch14

Note:

If you changed the settings for IFilter in the configurable registry, please perform the following commands in the command prompt window:

- 1. iisreset
- 2. net stop spsearch4
- 3. net start spsearch4
- 4. net stop osearch14
- 5. net start osearch14

Indexing PDFs

To index PDF files on your computer, please do the following:

- Add the .pdf file type to the index list:
 - 1. Go to the Search Service Application: Search Administration page, in the Crawling section, click File Types.
 - 2. Click New File Type > type "pdf" in the File extension field > click OK.

Installing Foxit PDF IFilter

Foxit PDF IFilter has two versions respectively for 32-bit Windows and 64-bit Windows. You can choose one of them to install onto your machine according to your system requirements. Before installing Foxit PDF IFilter, please note that Microsoft Office SharePoint Server has been installed successfully.

To install Foxit PDF IFilter, please do the following:

- Download Foxit PDF IFilter from Foxit Website (<u>http://www.foxitsoftware.com</u>) onto the machine where you wish to install it.
- Stop the IIS Admin service: Start > Settings > Control Panel > Administrator Tools > Services > IIS Admin Service > Stop. Close window.
- Run the Foxit PDF IFilter Setup program to install the filter on the server.
- Perform an iisreset:

1. Click Start > Run > type "cmd" in the Open line> click OK > type "iisreset" at the command prompt > hit Enter.

- 2. Close the window.
- Stop and start the Sharepoint Search Service by running the following commands:
 - 1. net stop spsearch
 - 2. net start spsearch
 - 3. net stop osearch
 - 4. net start osearch

You don't have to do full crawls every time you add some new PDF files. You may schedule the incremental crawls for all the new ones.

Note:

 Click to check the parts of <u>Updating Foxit PDF IFilter</u> and <u>Uninstalling Foxit PDF</u> <u>IFilter</u>.

- If you changed the settings for IFilter in the configurable registry, please perform the following commands in the command prompt window:
 - 1. iisreset
 - 2. net stop spsearch
 - 3. net start spsearch
 - 4. net stop osearch
 - 5. net start osearch

Indexing PDFs

To index PDF files on your computer, please do the following:

• Add the .pdf file type to the index list:

1. Go to the **Shared Service Administration: SharedServices 1** home page, click **Search Settings** link> under **Crawl Settings** click **File Types**.

2. Click **New File Type** > type "pdf" in the **File extension** field > click **OK**.

Chapter 4 - Foxit PDF IFilter for Microsoft SQL Server

Foxit PDF IFilter can help search text in PDF files. After installing Foxit PDF IFilter, it asks to upload the PDF documents and perform a full population with Microsoft SQL Server before you start a search.

Note:

Generally, all the instructions in this chapter are for Microsoft SQL Server 2014/2012/2008/2005. And the screenshots are from Microsoft SQL Server 2012 by default. If there is any difference between SQL Server 2012 and 2014/2008/2005, we will point it out as well as attach a screenshot.

Installing Foxit PDF IFilter

Foxit PDF IFilter has two packs respectively for 32-bit Windows and 64-bit Windows. You can choose one of them to install into your machine according to your system requirements. Before installing Foxit PDF IFilter, please make sure that Microsoft SQL Server has been installed successfully.

To install Foxit PDF IFilter on SQL server, please follow the steps as below.

1. Create a new functioning database to store PDF files.

- A. Run SQL Server Management Studio.
- B. Create a new database.

Right click the Database folder in the Object Explorer and select New Database. Type your Database name and click OK.

Note: you can also use the old Database.

C. Create a table.

Right click the Table folder in the new database and select New Table.

D. Complete the details in the "Column Name" column, the "Data Type" column, "Length" column, and "Allow Nulls" column.

Foxit PDF IFilter indexes PDF files in SQL Server based on your specified column names. For example, you may add some fields for PDF files as below:

Column Name	Data Type	Allow Nulls
PdfText	varbinary(MAX)	
Ext	nvarchar(50)	
PdfID	int	Г

PdfText: stores binary PDF files, whose data type should be varbinary(MAX).

Ext: stores the file extension of PDF files. It's set as ".pdf" in this example. For more information, please refer to http://technet.microsoft.com/en-us/library/ms142499.aspx

PdfID: designates a unique ID for each PDF file, which will act as the return value when you're trying to search PDFs.

Note:

The example of the table above is applied for Microsoft SQL Server in this manual.

E. Click **Save** button and enter a name for the table.

2. Install Foxit PDF IFilter.

- A. Download Foxit PDF IFilter installation pack by the given link in the sales email after purchasing the license. Also, you could get the 30-day trial version of Foxit PDF IFilter from Foxit Website (<u>http://www.foxitsoftware.com</u>).
- B. Run the Foxit PDF IFilter Setup and follow the steps to complete the installation on your server.

Notes:

- > Foxit PDF IFilter appears in the program list after installation.
- > Foxit PDF IFilter has no user interface.
- The installer will unzip an add-on called fpdfcjk.bin into the installation folder. This add-on will help index PDF documents containing the Chinese/Japanese/Korean characters.

3. Register Foxit PDF IFilter.

After the installation of Foxit PDF IFilter, it asks to register Foxit PDF IFilter.

A. Click the "Database Engine Query" button on the toolbar, and execute the following command to register Foxit PDF IFilter:

Exec sp_fulltext_service 'load_os_resources', 1 Exec sp_fulltext_service 'verify_signature', 0

- B. The message "**Command(s) completed successfully.**" means you have registered Foxit PDF IFilter successfully.
- 4. Restart the server, or you can stop and start SQL server and the Full-text Search engine by right-clicking them.

For SQL Server 2014/2012/2008:

A. Click Start > Programs > Microsoft SQL Server 2014/2012/2008 > Configuration Tools > SQL Server Configuration Manager.

- B. In the pop-up SQL Server Surface 2014/2012/2008 Area Configuration dialog box, please select Surface Area Configuration for Services and Connections.
- C. Select MSSQLSERVER > Service > click Stop button and then Start button.
- D. Select Full-Text Search > Service > click Stop button and then Start button.

For SQL Server 2005:

- A. Click Start > Programs > Microsoft SQL Server 2005 > Configuration Tools > SQL Server Surface Area Configuration.
- B. In the pop-up SQL Server Surface 2005 Surface Area Configuration dialog box, please select Surface Area Configuration for Services and Connections.
- C. Select MSSQLSERVER > Service > click Stop button and then Start button.

D. Select Full-Text Search > Service > click Stop button and then Start button.

5. Confirm the registration.

A. To check if PDF document type has been associated to Foxit PDF IFilter, execute the following commands.

select document_type, path from sys.fulltext_document_types where
document_type = '.pdf'

B. Check the result under the **Results** tab. Check the results to confirm success visually.

Object Explorer	5QLQuery1.sql - QA-S\Administrator (53))* 🗙 QA	SQL2012.pdfindex - dbo.Table_1*

Note:

To update and uninstall Foxit PDF IFilter, please refer to <u>Updating Foxit PDF IFilter</u> and <u>Uninstalling Foxit PDF IFilter</u>.

Setting up full-text search

To set up full-text search, you should take the following steps.

1. Confirming the Full-text search service.

A. Launch Microsoft SQL Server Management Studio and execute the following command.

print FULLTEXTSERVICEPROPERTY('IsFullTextInstalled')

- B. Check the result by the returned value.
 - 1 = Full-Text installed
 - 0 = Full-Text not installed
 - Null = invalid input, or error
- 2. Installing Full-Text component and service.

3. Enabling Full-Text indexing

In order to use Full-Text indexing function, you must first check if it has been enabled.

To enable Full-text indexing, please use one of the following two methods.

- Launch Microsoft SQL Server Management Studio. Right-click the database you have created > select Properties > choose Files tab > check "Use full-text indexing" > OK.
- Execute the following command:

exec sp_fulltext_database 'enable'

Object Explorer SQLQuery1.sql - QA-5...\Administrator (53))* ×
use pdfindex
go
exec sp_fulltext_database 'enable'
100 % • •
Messages
Command(s) completed successfully.

<u> </u>	QLQuery1.sql - JINPC\jinchi_liu (58))* // JINCHI_LIU-PC.pd
	Use pdfindex
	go
	<pre>exec sp_fulltext_database 'enable' </pre>
.∢.[III
B	Messages
C	ommand(s) completed successfully.

4. Creating a full-text catalog to store full-text indexes.

Please execute the following command.

create fulltext catalog pdfCatalog

5. Creating a unique index.

A. Open the table you have created > right click one of the column names > select "Set Primary Key".

	Column Name	Data Type	Allow Nulls
	PdfText	varbinary(MAX)	
	Ext	nvarchar(50)	~
3	PdfID	int	

JINCHI_LIU-PC.pdfindex - dbo.Table_1*		SQLQuery1.sql - JINPC\jii	nchi_liu (52))*
Column Name	Data Type	Allow Nulls	
PdfText	varbinary(MAX)		
Ext	nvarchar(50)		
PofID	int		

Table - dbo.pdftable*			Server2003.maQLQuery1.sql*		
		Column Name	Data Type	Allow Nulls	
		PdfText	varbinary(MAX)		
\langle	١Ÿ	PdfId	int		
		Ext	nchar(10)	✓	

B. Execute the following command:

create unique index ui_pdfIndex on dbo.pdftable(PdfId)

6. Create a full-text index

For SQL Server 2014/2012/2008

Right-click the table you have created > choose "Full Text Index" > set for it with all the default value. Please note the "PdfText" should be checked in **Available Columns** and "Ext" should be selected in **Type Column**.

For SQL Server 2005

Execute the following command:

create fulltext index on dbo. pdftable (PdfText – Please assign the column name for full-text index.) key index ui_pdfIndex on pdfCatalog with change_tracking auto

Uploading PDFs

1. To upload PDF files to Microsoft SQL Server, please write a segment of codes.

You could also copy the following example.

For SQL Server 2014/2012/2008

```
using System;
```

```
using System.Collections.Generic;
using System.Web;
using System.Web.UI;
using System.Web.UI.WebControls;
using System.Data.SqlClient;
namespace WebApplication1
{
     public partial class _Default : System.Web.UI.Page
     {
          protected void Page_Load(object sender, EventArgs e)
          {
           }
               protected void Button1_Click(object sender, EventArgs e)
               //Create a byte[] from the input file
               int len = FileUpload1.PostedFile.ContentLength;
               byte[] PdfText = new byte[len];
               FileUpload1.PostedFile.InputStream.Read(PdfText, 0, Ien);
```

```
// Insert the image and comment into the database
                    //SqlConnection connection = new
               SqlConnection(@"server=QA-SQL2012;database=QA-2012;uid=Administrator;pwd=");
               SqlConnection connection = new SqlConnection(@"Integrated Security=SSPI;Persist
         Security Info=False;Initial Catalog=pdl;Data Source=QA-SQL2012");
                   try
                    {
                    connection.Open();
                    SqlCommand cmd = new SqlCommand("insert into Table_1" + "(PdfText, PdfId, Ext)
               values (@PdfText, @PdfId, @Ext)", connection);
                    // Insert values into the three columns.
                    cmd.Parameters.Add(new SqlParameter("@PdfText", PdfText));
                     cmd.Parameters.Add(new SqlParameter("@PdfId",17));
                   // You can only upload a pdf file at a time.
                     cmd.Parameters.Add(new SqlParameter("@Ext", ".pdf"));
                    cmd.ExecuteNonQuery();
                   }
                   finally
                    {
                    connection.Close();
                    }
              }
         }
    }
For SQL Server 2005
    using System.Web.UI.HtmlControls;
    using System.Data.SqlClient;
    using System.IO;
    public void OnUpload(Object sender, EventArgs e)
    {
        // Create a byte[] from the input file
        int len = File1.PostedFile.ContentLength;
        byte[] PdfText = new byte[len];
        File1.PostedFile.InputStream.Read(PdfText, 0, len);
        // Insert the image and comment into the database
        SqlConnection connection = new
          SqlConnection(@"server=IP address or server
        name;database=pdfindex;uid=username;pwd=password");
        try
        {
            connection.Open();
            SqlCommand cmd = new SqlCommand("insert into pdftable "
               + "(PdfText, PdfId, Ext) values (@PdfText, @PdfId, @Ext)", connection);
            // Insert values into the three columns.
```

}

cmd.Parameters.Add("@PdfText", PdfText);
cmd.Parameters.Add("@PdfId", 1);// You can only upload a pdf file at a time.
cmd.Parameters.Add("@Ext", ".pdf");
cmd.ExecuteNonQuery();
}
finally
{
connection.Close();
}

2. Once if it succeeds, you will be prompted to upload your PDF files as below:

For SQL Server 2012

/Default.aspx - Windows Internet Explorer	1
calhost:1494/Default.aspx 🔎 🔽 🗟 👉 🔀 🎯 localhost	×
Browse Button	(j) (j)
Browse Button	

For SQL Server 2005

HtmlInputFile Example

Select File to Upload:	Browse
Save as file name (no path):	
Upload	

Note:

The codes above uses ADO.NET as the data access mechanism, and C# as the development language.

Starting a full population

After completing the steps above, you should start a full population for the uploaded PDFs. Actually, there are two ways under SQL Server 2012/2008/2005 to synchronize full-text indexes with their table data: Full Population and Incremental Population.

1. Full Population

A population when the index entries are built for all the rows in all the full-text catalog's tables.

2. Incremental Population

A population only adjusts index entries for rows that have been added, deleted, or modified after the last population.

You may select to start a full population or an incremental population according to your needs.

- 1. To start a full population, right-click the table you created > Full-Text index > Start Full Population.
- To start an incremental population, right-click the table you created > Full-Text index > Start Incremental Population.

Searching PDFs

After you finish indexing PDF files, you can start a search to find text within PDFs. Before you start a search, you have to verify if the full-text catalog or full-text index has been fully populated.

To check the population status, please execute the following command:

```
select fulltextcatalogproperty('PdfText','populatestatus')
```

You can start a search if the return value is 0.

To start a search, please execute the following command:

```
USE pdfindex;
GO
SELECT PdfId
FROM Table_1
WHERE CONTAINS(PdfText, 'Foxit');
GO
```

More help

For more information on how to work with Microsoft SQL Server, please refer to Microsoft SQL Server Help included in the product.

Chapter 5 - Foxit PDF IFilter for WSS

Foxit PDF IFilter can help search text in PDF files. After installing Foxit PDF IFilter, you should upload your PDF documents with Windows SharePoint Services (WSS) before you start searching.

Installing Foxit PDF IFilter

Foxit PDF IFilter has two versions respectively for 32-bit Windows and x64 Windows. You can choose one of them to install into your machine according to your system requirements. Before installing Foxit PDF IFilter, please note that Microsoft SharePoint Services 3.0 has been installed successfully.

To install Foxit PDF IFilter, please do the following:

- Download Foxit PDF IFilter from Foxit Website (<u>http://www.foxitsoftware.com</u>) onto the machine where you wish to install it.
- Run the Foxit PDF IFilter Setup program to install the IFilter.
- Add the following registry entry, and then set the registry entry value to pdf:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Shared Tools\Web Server Extensions\12.0\Search\Applications\<GUID>\Gather\Search\Extensions\ExtensionList\38

Please do the following:

- Click Start > Run, type "regedit", and then click OK.
- In "Registry Editor" dialog box, locate and then click the following registry subkey:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Shared Tools\Web Server Extensions\12.0\Search\Applications*GUID*\Gather\Search\Extensions\ExtensionList

- On the Edit menu, point to New, and then click String Value.
- Type 38, and then press ENTER.
- Right-click the registry entry that you created, and then click **Modify**.
- In the Value data box, type pdf, and then click OK.
- Verify that the following two registry subkeys are present and that they contain the appropriate values.

Note: These registry subkeys and the values that they contain are created when you installed the Foxit PDF IFilter on the server.

 Locate and click the following registry subkey: HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Shared Tools\Web Server Extensions\12.0\Search\Setup\ContentIndexCommon\Filters\Extension\.pdf

This registry subkey must contain the following registry entry:

Name: Default

Type: REG_SZ

Data: {987f8d1a-26e6-4554-b007-6b20e2680632}

📸 Regi	stry Editor			
<u>File</u> <u>E</u> o	lit <u>V</u> iew F <u>a</u> vorites <u>H</u> elp			
	🔄 🧰 Global 📃	Name	Туре	Data
	E- Setup	(Default)	REG_SZ	{987f8d1a-26e6-4554-b007-6b20e2680632}
	Edit String			
	Value <u>n</u> ame:			
	(Default)			
	<u>V</u> alue data:			
	{987f8d1a-26e6-4554-b007-6b20e2680632}			
	OK Cancel			

• Locate and click the following registry subkey:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Shared Tools\Web Server Extensions\12.0\Search\Setup\Filters\.pdf

This registry subkey must contain the following registry entries:

- Name: Default Type: REG_SZ Data: (value not set)
 Name: Extension Type: REG_SZ Data: pdf
- 3) Name: FileTypeBucket
 - Type: REG_DWORD
 - Data: 0x00000001 (1)
- 4) Name: MimeTypes

Type: REG_SZ

Data: application/pdf

Name	Туре	Data
(Default)	REG_SZ	(value not set)
Extension	REG_SZ	pdf
FileTypeBucket	REG_DWORD	0×00000001(1)
MimeTypes	REG_SZ	application/pdf

• Perform an iisreset:

• Click Start > Run > type "cmd" in the Open line> click OK > type "iisreset" at the command prompt > hit Enter.

🖼 F:\WINDOWS\system32\cmd.exe

• Close the window.

Note: In WSS2.0, Foxit PDF IFilter is installed on the computer which has SQL2005 server. In WSS3.0, Foxit PDF IFilter is installed on the computer which has WSS3.0.

Click to check the parts of Updating Foxit PDF IFilter and Uninstalling Foxit PDF IFilter

Uploading PDFs

To upload PDF files to Windows SharePoint Services 3.0, please do the following:

- 1. Open your Windows SharePoint Services site and click Shared Documents.
- 2. On the Upload menu, please click Upload Document.

3. Click the **Browse** button to upload a PDF document and click **OK**. When it has been uploaded, you will be returned to the Documents page where you will see that your PDF file has been uploaded.

Search results

Open one of the search results

Note: If the Windows SharePoint Services 3.0 Web site already had PDF documents

before you installed the Foxit PDF IFilter on the server, you may have to perform an additional step. After you install and configure the Foxit PDF IFilter on the server, modify a property of the existing PDF documents on the server. For example, modify a metadata property such as the title, or upload the PDF documents to the Windows SharePoint Services Web site again. When you do this, the Windows SharePoint Service states the existing PDF documents again.

More Help

For more information on how to work with Windows SharePoint Services (WSS), please refer to Windows SharePoint Services (WSS) Help included in the product.

Chapter 6 - Foxit PDF IFilter for Microsoft Exchange Server

Working in Exchange 2010

Modifying registry information

- 1. Install Foxit PDF IFilter on the platform where Exchange 2010 was installed.
- 2. Modify the registry information
- 1) Click start > run > type regedit to open the Registry Editor (regedit)
- 2) Locate the registry subkey through the following path:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\ExchangeServer\v14\MSSearch\CLSI D\{987f8d1a-26e6-4554-b007-6b20e2680632}

Add the following string value to the subkey by double-clicking

Subkey	Value
{987f8d1a-26e6-4554-b007-6b20e2680632}	Drive:\Program Files\Foxit Software\Foxit PDF IFilter\pdffilt.dll

3) Create the following string value in the subkey you modified in Step 2):

Value Name	Туре	Value Data
ThreadingModel	String (REG_SZ)	Both

Registry Editor						
File Edit View I	Favorites Help					
	🖻 🌗 🗅	SID		Name	Туре	Data

4) Locate the registry subkey through the following path:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\ExchangeServer\v14\MSSearch\Filters Add the following string value to the subkey by double-clicking (Default).

Subkey	value
.pdf	{987f8d1a-26e6-4554-b007-6b20e2680632}

Please refer to the following picture:

- 2. Please restart the Exchange Search service with following the step shown below:
- 1) Click Start > Run > type "cmd" > click OK > type "iisreset" in the command prompt

window > press Enter.

2) Restart the Microsoft Search (Exchange) Service through the services console or type

the following commands in the Exchange Management Shell.

Stop-Service msftesql-Exchange –Force Start-Service MSExchangeSearch

Indexing PDF attachments

- 1. Start 'services.msc'.
- 2. Restart MSExchange Information Store service.
- 3. Create an index by executing the following command in the Exchange Management shell.

ResetSearchIndex.ps1 -force -all

After the system completes the indexing, the result will be saved in the same location with Mailbox database.

Alternatively, you can use the resetSearchIndex.ps1 script. This PowerShell script accepts the name of the database you want to work with as an input parameter. As shown above, to get started, enter cd \$env:exchangeInstallpath\Scripts, then run the script by entering .\resetSearchIndex.ps1 which is followed by the name of the database, i.e. \resetSearchIndex.ps1 EngineeringMailboxDb.

Searching PDFs

After finishing indexing PDF files, you can find the target PDF file with Foxit PDF IFilter by searching the text within PDF files or its properties, such as author, title, etc. To search a PDF file, please perform the followings:

- 1. Visit the website <u>https://exchangesever/owa</u> to open OWA (Outlook Web App).
- (i.e. https://ex01.cpandl.com/owa)
- 2. Login the mailbox in which you want to search PDFs.

3. Please type the words you want to search in the search box, and then click the Search

button 🔎.

3. Please restart the Exchange Search Service with following the step shown below:

1) Click Start > Run > type "cmd" > click OK > type "iisreset" in the command prompt

window > press Enter.

2) Restart the Microsoft Search (Exchange) service through typing the following commands in the command prompt window.

net stop msftesql-exchange

net start msexchangesearch

Command Prompt

Microsoft Windows [Version 5.2.3790]

(C) Copyright 1985-2003 Microsoft Corp.

C:\Documents and Settings\Administrator> net stop msftesql=exchange
The following services are dependent on the Microsoft Search (Exchange) service

Stopping the Microsoft Search (Exchange) service will also stop these services.

Microsoft Exchange Search Indexer
Do you want to continue this operation? (Y/N) [N]: y

The Microsoft Exchange Search Indexer service was started successfully.
C:\Documents and Settings\Administrator>

Indexing PDF attachments

1. Start 'services.msc'

2. Restart Microsoft Exchange Information Store service.

3. Create an index by executing the following command in the Exchange Management Shell.

ResetSearchIndex.ps1 -force

After the system completed the indexing, the result will be saved in the same location as Mailbox database.

Searching PDFs

After finishing indexing PDF files, you can find the target PDF file with Foxit PDF IFilter by searching the text within PDF files or its properties, such as author, title, etc.

To search a PDF file, please perform the followings:

- 1. Visit the website <u>https://IP/owa/</u> (i.e. https:// 192.168.0.128/owa)
- 2. Click to open a category that contains the target PDF file.
- 3. Please type the words you want to search in the search box, and then click the

Search button 2.

The PDFs that contain the search terms will be showed under the **Search** box.

Chapter 7 - Additional Information

Microsoft Developer Support

Foxit PDF IFilter is a Dynamic Link Library (DLL) file that provides a bridge between a Microsoft indexing client and a library of PDF files. It consists of code that understands the PDF Format as well as code that can interface with the indexing client. When an indexing client needs to index content from PDF files, it will look in its registry for an appropriate DLL and will find the Foxit PDF IFilter. Foxit PDF IFilter will return text to the indexing client. The indexing client will then index the results and return the appropriate results to the user.

Language Support

This section lists languages supported by Foxit PDF IFilter.

- German
- French
- Italian
- English
- Spanish
- Portuguese
- Russian
- Chinese (traditional and simplified)
- Korean
- Japanese
- Arab
- Hebrew
